Danyyal Ali Yar

React/Next | Node/Nest | Python | AWS | JS/TS | Angular | Github | Graphql | Storybook

I am a dedicated software engineer focused on delivering high-quality solutions tailored to client needs. With a strong background in developing robust applications, I thrive in collaborative environments where I can utilize my problem-solving skills. My emphasis on effective communication helps build solid relationships with clients, ensuring their vision is translated into products. I am eager to learn and adapt, staying current with industry trends to contribute to innovative projects.
